VICTORIA.

COUNTRY ROADS BOARD.

NINTH ANNUAL REPORT

FOR YEAR ENDED 30TH JUNE, 1922.

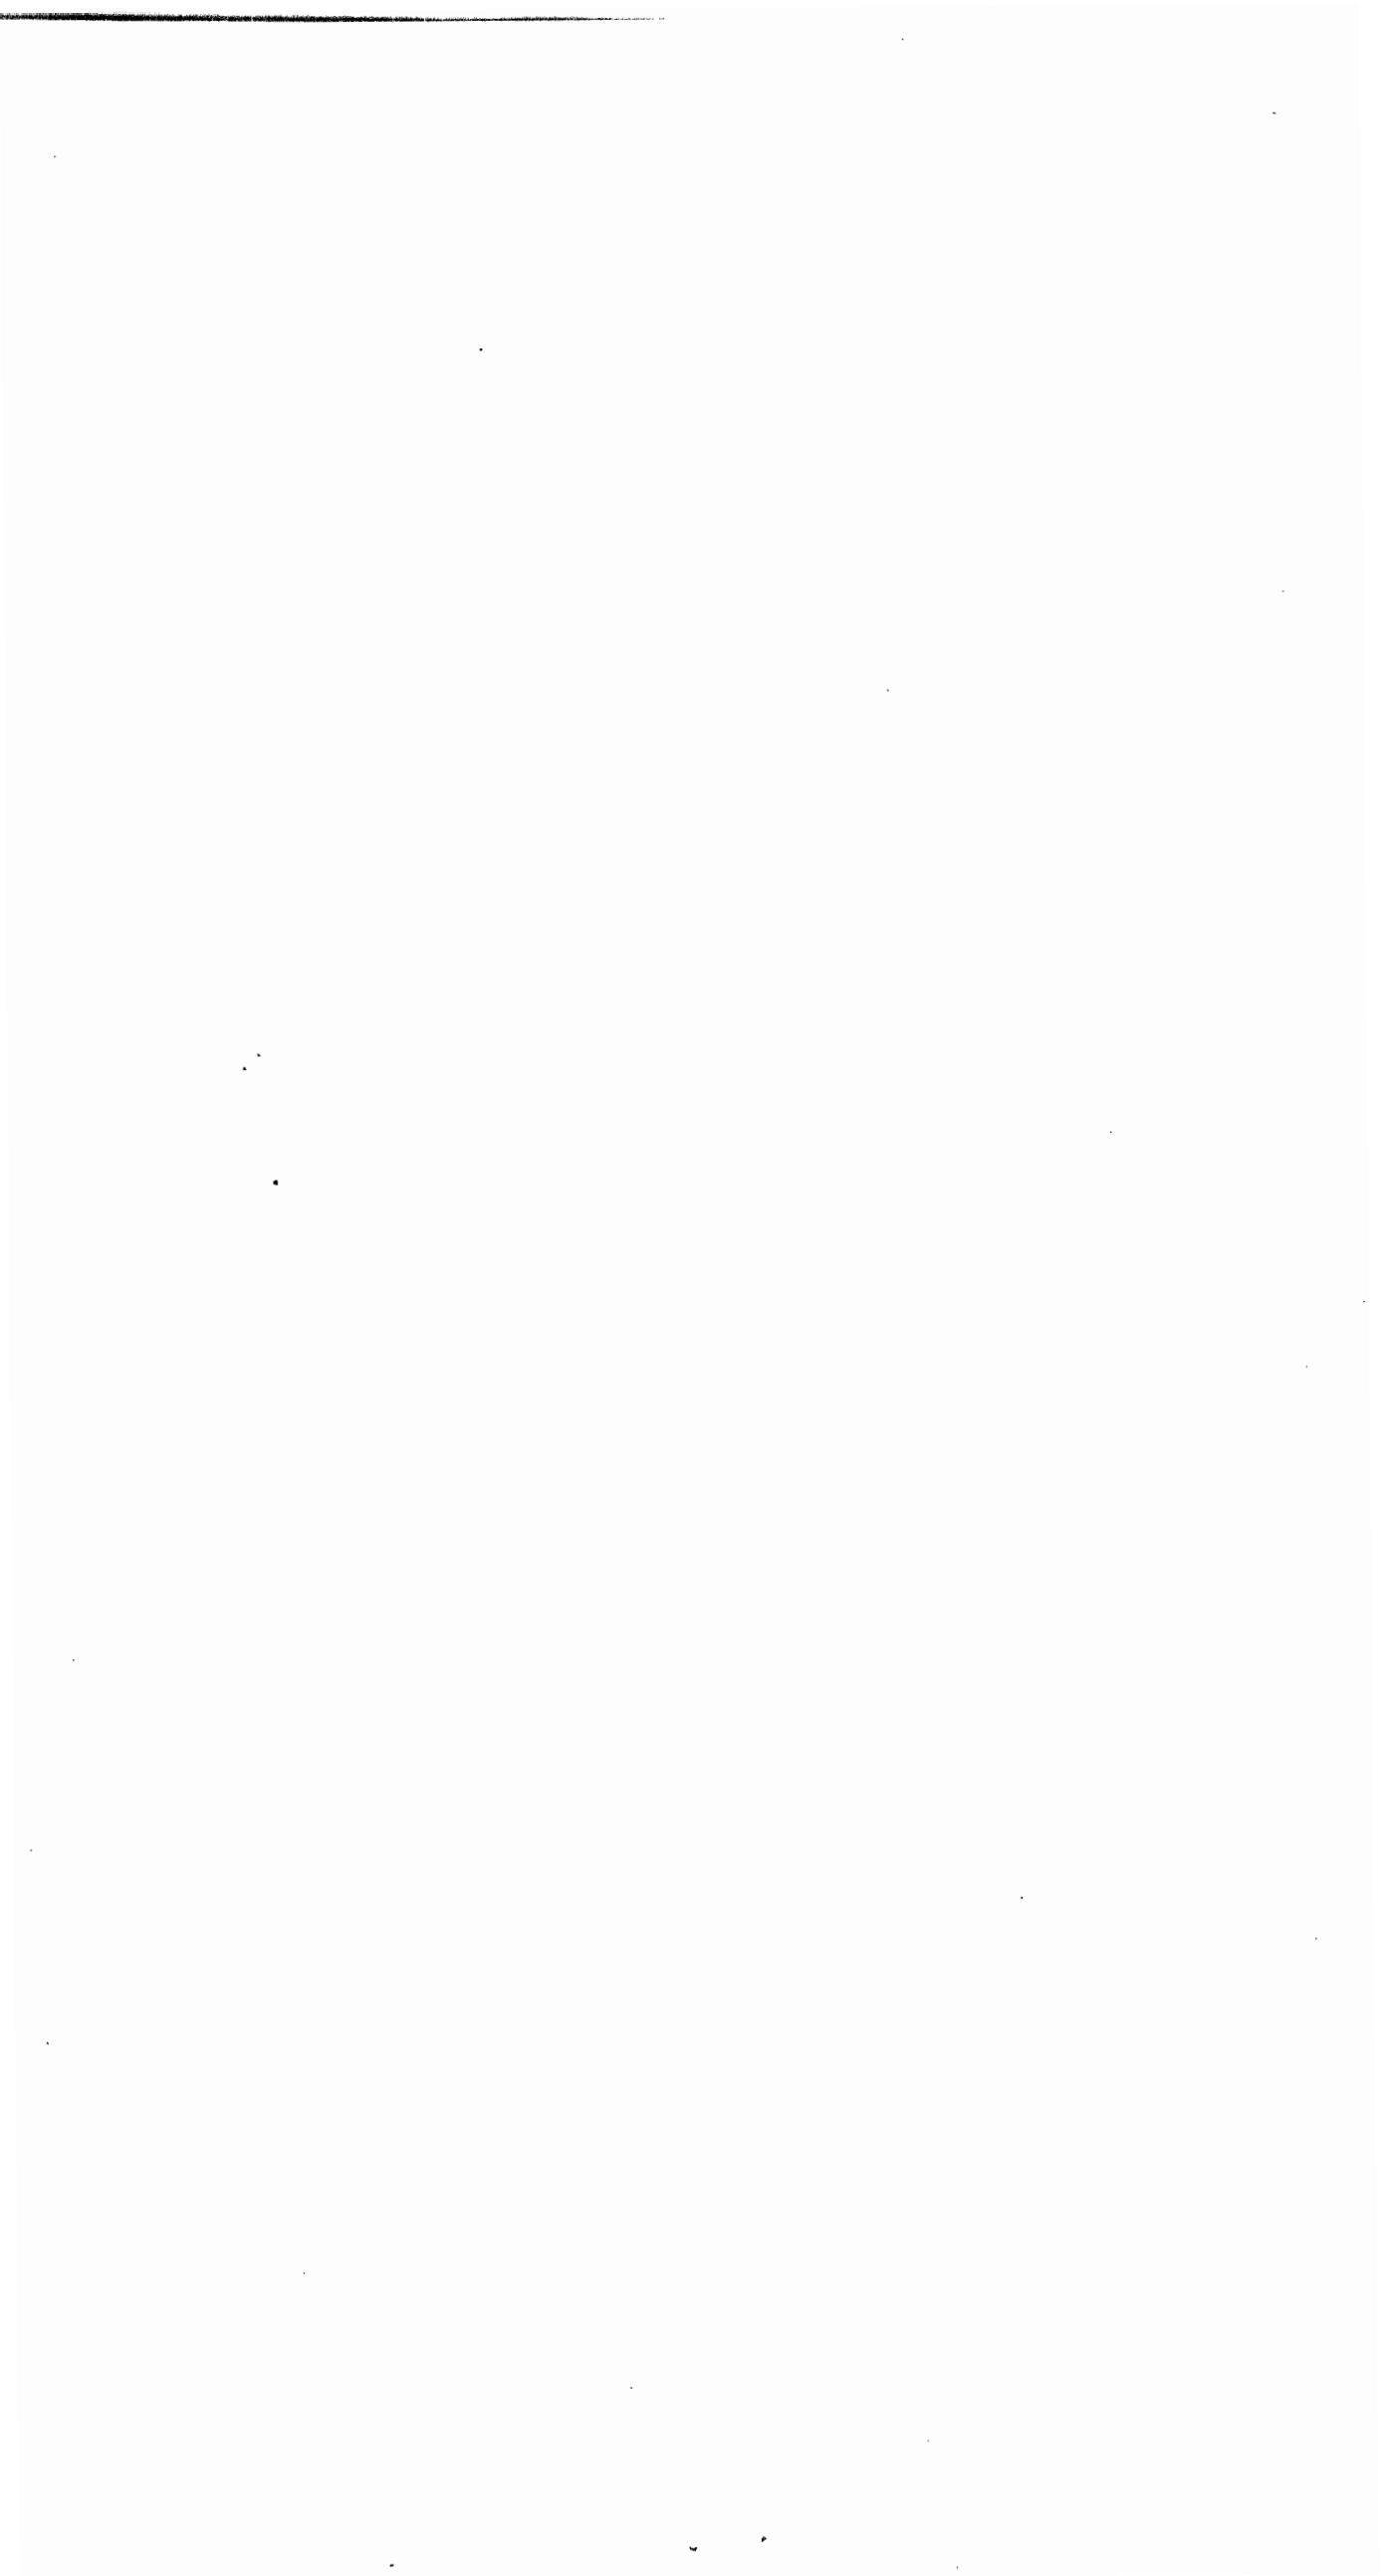

PRESENTED TO BOTH HOUSES OF PARLIAMENT PURSUANT TO ACT No. 2635.

[Cost of Report. Preparation, not given. Printing, 350 copies), £73.]

By Authority

ALBERT J. MULLETT, GOVERNMENT PRINTER, MELBOURNE.

No. 15.—[1s. 6d.]— 1113.

COUNTRY ROADS BOARD.

NINTH ANNUAL REPORT.

Melbourne, 31st December, 1922.

The Honorable F. G. Clarke, M.L.C., Minister of Public Works.

SIR,

In accordance with the requirements of section 73 of the Country Roads Act, No. 2635, I have the honour to submit to you the Ninth Annual Report of the proceedings of the Board, together with the balance-sheet as at 30th June, 1922, and statement of accounts and appendices as required by the Statutes.

Following the practice adopted by the Board since its inception, fully 90 per cent. of all works of construction, as distinct from maintenance, has been carried out by municipalities under the contract system, and it is satisfactory to record the fact that during the period under review there has been a decided reduction in the cost of works compared with the high costs which prevailed during and immediately succeeding the war period. This reduction has ranged from 5 per cent. in some cases to as high as 30 per cent. on estimates and tenders previously submitted.

MAIN ROADS (PERMANENT WORKS).

The expenditure of Loan Funds on declared Main Roads for the year amounted to £288,937 1s. 6d., as against £271,849 15s. 9d. for the previous year, making a total expenditure since the Board commenced operations to the 30th June, 1922, of £2,466,145 1s. 11d. Under the above heading during the past five years the average annual expenditure has amounted to £281,506, and the mileage of road constructed has averaged 208 miles per annum at a cost of £1,353 per mile.

In view of the fact that a considerable proportion of the annual expenditure on permanent works is incurred in replacing worn-out timber bridges on main traffic arteries by structures of a more permanent type, one bridge alone costing over £20,000, the amount available for the construction of new roads gazetted as main roads is considerably reduced. As many of these roads are of a distinctly developmental character, it is evident that at the present rate of construction it will be many years before construction work on some of them can be undertaken.

DEVELOPMENTAL ROADS (CONSTRUCTION).

The expenditure on construction of developmental roads for the year amounted to £627,092 11s. 4d., the mileage of roads improved being 425.092, distributed over 74 shires.

“Construction” under this heading embraces all items of expenditure incidental to the provision of a new highway and includes cost of survey, compensation for land purchased for new location and fencing embankments where necessary, bridges, metal or gravel surface, and cost of supervision by local authorities. Except in certain instances where it has been found necessary to alter or improve the gradients on existing roads, no portion of the loan funds provided for developmental roads has been expended in repairs or reconstruction which comes under the heading of maintenance and is the responsibility of the local authority under the Local Government Act.

MAINTENANCE OF MAIN ROADS.

Expenditure on maintenance for the year amounted to £267,969 9s. 5d., which is the largest amount expended in any one year since the inception of the Board. Every year has shown an increasing expenditure under this heading, but such increase is due to the constantly advancing cost of labour and materials rather than to an improved condition of the roads or an increased mileage of roads treated.

APPORTIONMENT OF COSTS.

The apportionment of the amount expended on permanent works and maintenance on main roads during the financial year 1920-21 was duly made in accordance with the requirements of section 27 of the Country Roads Act, resulting in a further debit to municipalities of £2,359 13s. 7d. on account of interest on permanent works expenditure and of £103,081 9s. 4d. on account of expenditure on maintenance, which amounts were duly received by the due date.

The number of motor vehicles and motor cycles registered under the Motor Car Act during the year, including renewals, was 27,232 and 12,406 respectively, the net revenue received including fines and licence-fees, being £118,672 9s. 11d., an increase of £20,537 12s. 5d. over the previous year.

APPENDICES.

Particulars as to permanent works, both on main and developmental roads, and of main roads maintained, and an account of all moneys received and expended during the year as required by the Statutes, are shown in Appendices.

We have the honour to be,

Sir,

Your obedient servants,

W. CALDER,

Chairman.

W. T. B. McCORMACK, } Members.
F. W. FRICKE, }

W. L. DALE, Secretary.
